

AYUSHI THAKUR

IT Program Manager | PMO Strategy and Governance | AI-Driven Delivery Leadership
Bengaluru | ayushiiithakur99@gmail.com | +91-7338322371 | [LinkedIn](#) | [Portfolio](#)

IT Program Manager and PMO strategist with 4.5 years of progressive leadership delivering enterprise-scale programmes across Bengaluru's global technology and manufacturing ecosystem. Governs a \$1.3M concurrent programme portfolio on time and within budget while pioneering AI-driven governance practices ahead of industry adoption. Built and deployed a company-wide AI application as a Project Manager, not just a sponsor. Recognised for translating organisational ambiguity into structured governance frameworks, influencing stakeholder alignment from engineering to C-suite, and driving business process improvement through intelligent automation. CAPM certified (Above Target). PMP in progress. Portfolio: <https://ayushi-thakur-pm.vercel.app/>

\$1.3M+ Portfolio Governance	13+ Concurrent Programs	20% Delivery Delays Cut	40% Reporting Efficiency	4.5 Yrs Progressive PM Leadership	1 of 1 AI App Adopted Co-Wide

CORE COMPETENCIES AND SKILLS

Programme and PMO Leadership: Program Management | Project Management Office (PMO) | Portfolio Management | PMO Governance | Project Planning | Project Delivery | Strategic Alignment | Delivery Excellence | Milestone Tracking

Risk, Budget and Governance: Risk Management | Risk Mitigation | Budget Management | Resource Allocation | Resource Optimisation | Change Management | Scope Management | Business Process Improvement | Variance Analysis

Delivery Methodologies: Agile Project Management | Scrum | Waterfall | Hybrid Delivery | SDLC | Sprint Planning | Stakeholder Management | Cross-Functional Team Leadership | Executive Reporting

AI and Innovation Leadership: Claude | RAG (Retrieval-Augmented Generation) | Prompt Engineering | Reverse Prompting | Prompt Chaining | AI Application Development | Vibe Coding | Gamma.ai | ChatGPT | AI-Driven PMO Transformation

Tools and Platforms: Power BI | Tableau | Jira | Confluence | Azure DevOps | SQL | SmartSheet | Advanced Excel | MS Project

Certifications: CAPM (Above Target, June 2025) | Google Project Management Professional | Tableau Data Analyst | PMP (In Progress)

PORTFOLIO AND STRATEGIC INITIATIVES

Live portfolio at <https://ayushi-thakur-pm.vercel.app/> showcasing strategic delivery outcomes, AI-powered applications, and PMO governance artefacts built across a 4.5-year leadership track record.

- Code Health Monitor (AI Application, Company-Wide Adoption):** Architected and deployed an AI-powered application during a team Codeathon using Claude and RAG-augmented development. Selected for team-wide rollout across all active project workstreams as a real-time code quality governance tool. A Program Manager who builds solutions, not just manages them.
- RAG-Powered Requirement Engineering:** Pioneered structured RAG and reverse prompting frameworks to extract precise programme scope, surface unstated stakeholder constraints, and eliminate requirement rework before initiation. Directly reduced scope creep across managed portfolios.
- AI-Driven PMO Reporting Transformation:** Engineered prompt-chaining workflows automating executive status narrative generation. Achieved 40% reporting efficiency gain and redirected delivery team capacity from documentation to strategic risk management.
- Programme Governance Artefact Library:** Live project plans, RAID logs, risk dashboards, and stakeholder communication frameworks demonstrating end-to-end PMO governance maturity across 13+ concurrent global programmes.

PROFESSIONAL EXPERIENCE

IT Project Manager | Programme Lead

Nov 2023 to Present

TE Connectivity | Bengaluru, India | Global Engineering and Manufacturing Enterprise

- Orchestrated enterprise programme governance across 13+ concurrent global IT projects, a \$1.3M portfolio spanning engineering, quality, finance, and AI domains. Established delivery frameworks, resource optimisation strategies, and risk mitigation controls that achieved consistent on-time, within-budget performance with zero governance escalations.
- Pioneered AI-driven risk intelligence for programme delivery. Applied structured Claude-powered risk prompts against live project schedules to surface scope-timeline misalignments before escalation. Reduced delivery delays by 20% across the portfolio through proactive risk management rather than reactive issue resolution.
- Transformed PMO reporting from manual assembly to AI-accelerated strategic communication. Engineered prompt-chaining workflows automating executive status narratives, delivering a 40% efficiency gain and converting reporting into a stakeholder influence asset.

- Spearheaded cross-functional stakeholder alignment across engineering, quality, finance, and AI domains spanning global time zones. Applied RAG-powered requirement structuring and reverse prompting to convert ambiguous stakeholder inputs into accountable programme scope and measurable delivery outcomes and project deliverables.
- Drove Agile project management and hybrid programme governance in partnership with SCRUM masters. Bridged the strategic-execution gap by maintaining C-suite programme visibility while enabling sprint-level team autonomy across Product Model and Agile workstreams.
- Influenced executive reporting strategy by engineering standardised Power BI dashboards adopted across the PMO function as the single source of truth for budget, schedule, and risk status. Improved data-driven decision-making for senior leadership.
- Recognised with multiple ECE Awards and a Spot Award (2023) for strategic impact, cross-functional team leadership, and measurable delivery outcomes and project deliverables across data and AI-driven programme workstreams.

Business Intelligence Analyst

Feb 2023 to Nov 2023

TE Connectivity via Bellfast Management Pvt. Ltd. | Bengaluru, India

- Architected 20+ Tableau and Power BI dashboards for the global ISC leadership team. Transformed fragmented KPI data across sales, inventory, and billing into executive-ready strategic intelligence that directly influenced global resource allocation and inventory planning. Reduced manual reporting effort by 30%.
- Orchestrated cross-regional stakeholder engagement to translate operational data complexity into decision-ready insights. Built the stakeholder management and executive communication capabilities that underpin current programme leadership.

Business Development and BI Analyst

Dec 2021 to Feb 2023

TE Connectivity | Bengaluru, India | Apprenticeship

- Drove strategic KPI visibility for the global ISC team through Tableau, Power BI, and Excel dashboards used directly in senior leadership go/no-go decisions. Built pipeline governance trackers for early-stage business programmes, demonstrating initiative and strategic influence from day one.
- Gained direct plant-floor exposure to automotive connector and manufacturing parts operations. Developed industry domain knowledge directly transferable to IT programme delivery in complex, industrial enterprise environments.

LEADERSHIP AND COMMUNITY INITIATIVES

- **Employee Engagement Lead, TE Connectivity (Ongoing):** Leads strategic engagement for a 70-80-person multi-disciplinary team. Designs and orchestrates workshops, cross-functional events, and inclusion programmes that measurably strengthen collaboration and organisational cohesion.
- **WIN (Women in Networking) Core Member, TE Connectivity (Ongoing):** Drives community strategy and programme design for TE Connectivity's Women in Networking initiative. Organises professional development events, facilitates peer networking, and shapes initiatives that help women across the organisation build visibility, access new opportunities, and advance their careers.
- **ALIGN Bengaluru Chapter Lead, TE Connectivity (Ongoing):** Serves as Bengaluru Event Lead for TE Connectivity's LGBTQ+ employee resource group. Leads community event planning and execution, drives allyship programmes, and champions awareness initiatives that build a more equitable and inclusive workplace culture.

EDUCATION

Bachelor of Engineering, Computer Science and Engineering | Global Academy of Technology, Bengaluru 2021 | CGPA 8.0
